

INQUIRY-BASED EFL CURRICULUM

For Young Learners at A2 Level

16 Weeks | 4 Sessions per Week | 2 Hours per Session
64 Total Sessions | 128 Total Hours

Designed & Authored by

Rayene Medabis

M.Ed. | TESOL-Certified | Teacher Trainer & Instructional Designer

SECTION 1: PROGRAMME OVERVIEW

Introduction

This curriculum is an inquiry-based English as a Foreign Language (EFL) programme designed for young learners operating at the A2 level of the Common European Framework of Reference for Languages (CEFR). Spanning 16 weeks with four two-hour sessions per week, the programme provides a rich, structured, and student-centred learning experience totalling 128 instructional hours.

The inquiry-based approach places students at the centre of the learning process. Rather than passively receiving language, students are invited to ask questions, explore topics with genuine curiosity, and express their ideas in English. Language acquisition is embedded in meaningful, real-world contexts that connect to students' lives, communities, and the wider world.

Designed for use by English teachers working with young learners aged approximately 8–13 years, this curriculum provides complete instructional guidance for each session, clear objectives and outcomes, formative assessment through project sessions, and a comprehensive programme assessment checklist.

Programme Goals

The following overarching goals guide the entire 16-week programme:

- Develop communicative competence across all four language skills — listening, speaking, reading, and writing — at the A2 level.
- Foster a genuine curiosity for learning English through inquiry-based exploration of meaningful themes.
- Build confident, independent young language learners who can express themselves in a variety of social and academic contexts.
- Introduce young learners to global awareness, cultural appreciation, and critical thinking through English.
- Establish a positive, inclusive classroom culture where risk-taking is celebrated and mistakes are valued as learning opportunities.
- Support teachers in delivering structured, reflective, and evidence-based instruction.

Programme Objectives

By the end of this programme, students will be able to:

- Use A2-level grammar structures accurately, including: present and past simple, present continuous, comparatives, superlatives, modals, There is/are, Have got, and basic conditionals.
- Demonstrate knowledge of 300+ vocabulary items across 16 thematic units.
- Read and understand short A2-level texts and respond to comprehension questions.
- Write structured sentences, paragraphs, and short texts on familiar topics.
- Participate in conversations, discussions, and oral presentations with growing confidence.
- Formulate inquiry questions and use research language to share what they have discovered.
- Complete six assessed project tasks that demonstrate language use in context.

Programme Learning Outcomes

Upon successful completion of this 16-week programme, students will demonstrate the following measurable outcomes:

#	Skill Area	Expected Outcome
1	Listening	Understands slow, clear speech on familiar topics and follows simple instructions.
2	Speaking	Participates in short conversations and delivers a structured 2–3 minute presentation.
3	Reading	Reads and understands short A2 texts, identifies main ideas and key details.
4	Writing	Writes paragraphs and short texts on familiar topics with reasonable accuracy.
5	Vocabulary	Uses 300+ words across 16 thematic areas accurately and in context.
6	Grammar	Applies key A2 grammar structures in both spoken and written tasks.
7	Inquiry	Formulates questions and presents findings using structured language.
8	Projects	Successfully completes 6 assessed project tasks demonstrating holistic competence.

Curriculum Design Principles

This curriculum is built on five core design principles that underpin every session, activity, and assessment:

- **Inquiry as the Engine:** Students learn best when they are curious. Each unit begins with a compelling question or scenario that sparks genuine interest.
- **Language in Context:** Grammar and vocabulary are never taught in isolation. Every structure is embedded in a meaningful, thematic context.
- **Learner Autonomy:** Students are given choice in topics, creative expression, and reflection. They are trusted to lead their own learning.
- **Progressive Challenge:** Each week builds on the last. Vocabulary, structures, and skills spiral upward in complexity across the 16 weeks.
- **Assessment as Learning:** Projects are not tests — they are opportunities for students to demonstrate, explore, and take pride in their growth.

SECTION 2: CURRICULUM MAP — 16-WEEK OVERVIEW

Week	Theme	Key Grammar Focus	Key Vocabulary Focus	Project?
1	Who Am I?	Present simple, Have got	Emotions, classroom, identity	
2	Family & Home	Possessives, There is/are, prepositions	Family, rooms, objects	
3	School & Classroom	Must/mustn't, present simple	School places, subjects, rules	
4	Food & My World	Some/any, countable/uncountable	Food categories, health	★ Project 1
5	Animals Around Us	Can/can't, because	Animals, habitats, endangered	
6	My Body & Health	Have got, should/shouldn't, frequency adverbs	Body parts, health, illness	
7	Weather & Seasons	Present continuous, comparatives, conditionals	Weather, seasons, clothing	
8	Colours, Shapes & Patterns	Descriptive adjectives, comparative	Colours, shapes, patterns	★ Project 2
9	My Community	Modals, whose, imperatives	Community places, helpers	
10	Transport & Travel	Comparatives/superlatives, past simple	Transport, travel, countries	
11	Celebrations & Culture	Present/past/future, mixed tenses	Celebrations, traditions, culture	★ Project 3
12	Technology & Me	Passive, is used for, comparison language	Devices, internet, safety	★ Project 4
13	Our Environment	Passive voice, imperatives, future	Nature, pollution, recycling	
14	Sports & Hobbies	Play/do/go, frequency, character adjectives	Sports, hobbies, admiration	★ Project 5
15	Stories & Imagination	Past continuous, narrative tenses	Genres, characters, settings	
16	Final Review & Showcase	Mixed revision of all structures	All units consolidated	★ Project 6

SECTION 3: DETAILED LESSON PLANS BY WEEK

WEEK 1

Who Am I? — Discovering Myself

Session 1 — My Name, My World

Session Objectives:

- Introduce themselves using name, age, and country.
- Recognize and use basic classroom vocabulary.
- Begin to feel comfortable using English in a supportive setting.

Expected Outcomes:

- Students can say: 'My name is..., I am ... years old, I am from...'
- Students identify 5+ classroom objects by name.
- Students feel safe taking risks in English.

Materials:

Name cards, classroom object flashcards, 'All About Me' worksheet.

How to Teach This Session:

1. Warm-up (15 min): Sit in a circle. Teacher models self-introduction with gestures. Students repeat in chorus, then individually.
2. Inquiry Hook (20 min): Ask 'What do you want the class to know about you?' — encourage drawing or pointing if words are unavailable.
3. Vocabulary Input (25 min): Use flashcards to introduce 10 classroom objects. Students touch and name objects around the room.
4. Guided Practice (25 min): Students fill in 'All About Me' worksheet with name, age, country, and a drawing of themselves.
5. Reflection & Sharing (15 min): Pairs share their worksheets. Class asks one question each.
6. Wrap-up (20 min): 'Name Ball' game — throw a soft ball, the catcher says their name and one fact.

Session 2 — How Do I Feel Today?

Session Objectives:

- Identify and name 8 basic emotions in English.
- Ask and answer 'How do you feel?' with a reason.
- Connect emotions to daily situations.

Expected Outcomes:

- Students produce: 'I feel happy because...'
- Students recognize emotion vocabulary in pictures and text.
- Students demonstrate active listening when peers share.

Materials:

Emotion flashcards, feelings wheel poster, emotion journal (blank paper).

How to Teach This Session:

1. Warm-up (10 min): Teacher models exaggerated facial expressions. Students guess the

emotion and shout the word.

2. Vocabulary Presentation (20 min): Introduce 8 emotions via flashcards. Drill with TPR (Total Physical Response).

3. Inquiry Discussion (20 min): Show pictures of children in situations. Ask 'How does she feel? Why?'

4. Language Focus (25 min): Teach the structure 'I feel ____ because ____.' Students practise in pairs with prompt cards.

5. Creative Output (25 min): Students draw their 'feelings wheel' — colour and label emotions.

6. Exit Ticket (20 min): Each student shares one sentence: 'Today I feel ____ because ____.' Teacher records observations.

Session 3 — Things I Like and Don't Like

Session Objectives:

- Use 'I like / I don't like' with nouns and -ing verbs.
- Ask a partner about preferences using 'Do you like...?'
- Record findings using a simple tally chart.

Expected Outcomes:

- Students correctly form 6+ sentences about likes and dislikes.
- Students conduct a mini peer survey.
- Students interpret their tally chart aloud.

Materials:

Like/dislike topic cards (food, animals, sports, colours), tally chart template.

How to Teach This Session:

1. Warm-up (15 min): Teacher plays a quick 'thumbs up / thumbs down' game with images on board.
2. Language Input (20 min): Introduce 'I like... / I don't like...' and 'Do you like...? Yes, I do. / No, I don't.'
3. Guided Practice (20 min): Students work in pairs using topic cards to ask and answer.
4. Survey Task (30 min): Each student surveys 4 classmates using the tally chart template on 3 topics.
5. Reporting (15 min): Pairs share: 'Three students like pizza. One student doesn't like pizza.'
6. Wrap-up (20 min): Class creates a 'Wall of Likes' — students write/draw one thing they love on a sticky note and post it.

Session 4 — My Inquiry Journal Begins

Session Objectives:

- Understand the concept of inquiry and questioning.
- Write or draw 3 questions about the world they are curious about.
- Set up their personal Inquiry Journal for the semester.

Expected Outcomes:

- Students identify the difference between a 'fact' and a 'question'.
- Students produce at least 3 written questions in English.
- Students decorate and take ownership of their journals.

Materials:

Blank journals (A5 exercise books), coloured pencils, example inquiry questions on board.

How to Teach This Session:

1. Warm-up (15 min): Read aloud a short illustrated story. Stop and model asking 'I wonder...' questions.
2. Concept Introduction (20 min): Explain 'inquiry' using simple language: 'Inquiry means asking big questions to learn new things.'
3. Demonstration (20 min): Show an example Inquiry Journal page. Students identify components (title, questions, drawings).
4. Journal Setup (30 min): Students decorate journal covers and write their name, then complete Page 1: 'Things I wonder about...'
5. Sharing Circle (15 min): Volunteers share one question. Teacher writes class favourites on board.
6. Wrap-up (20 min): Discuss 'How do we find answers?' — introduce the idea of exploring, reading, asking, and experimenting.

WEEK 2

My Family & My Home

Session 5 — Family Members

Session Objectives:

- Name immediate and extended family members.
- Describe family members using basic adjectives (tall, young, funny).
- Understand possessives: my, his, her, their.

Expected Outcomes:

- Students produce: 'This is my grandmother. She is kind.'
- Students correctly use 5+ family vocabulary words.
- Students draw and label a family tree.

Materials:

Family vocabulary cards, family tree template, student photos or drawings.

How to Teach This Session:

1. Warm-up (10 min): Show a photo of a famous fictional family (cartoon). Ask 'Who is this?' — elicit vocabulary.
2. Vocabulary Input (20 min): Teach family members via flashcards. Introduce possessives alongside: 'her mother, his brother'.
3. Language Practice (25 min): Students describe teacher's example family tree using sentence frames on the board.
4. Family Tree Activity (30 min): Students draw their own family tree and label each person with name and relationship.
5. Partner Share (15 min): Students show their tree to a partner and describe 3 family members.
6. Wrap-up (20 min): Class creates 'Our Class Family Wall' — each student adds their drawn family tree photo.

Session 6 — My Home

Session Objectives:

- Name rooms and common objects in a house.
- Use 'There is / There are' to describe a room.
- Use prepositions of place: in, on, under, next to.

Expected Outcomes:

- Students describe a room using 4+ prepositions correctly.
- Students produce: 'In my bedroom there is a bed next to the window.'
- Students label a house floor plan diagram.

Materials:

House diagram flashcards, room object word cards, blank floor plan template.

How to Teach This Session:

1. Warm-up (15 min): Play 'Hot and Cold' — hide an object in the classroom and give directions using prepositions.
2. Vocabulary Input (20 min): Present rooms and objects using a projected house image. Drill in

chorus.

3. Grammar Focus (20 min): Teach 'There is / There are' with examples. Students practise with substitution drills.

4. Drawing Task (25 min): Students draw their bedroom or living room and label 8+ objects with their positions.

5. Oral Description (20 min): Students describe their drawing to a partner using the sentence frame.

6. Wrap-up (20 min): Class builds a shared 'Dream House' — each table contributes one room description on a card.

Session 7 — What Does Your Family Do?

Session Objectives:

- Use simple present tense with 'he/she/they' forms.
- Describe family routines and jobs.
- Ask and answer 'What does your mum/dad do?'

Expected Outcomes:

- Students correctly form 3rd person present simple sentences.
- Students describe 3+ family members' routines or occupations.
- Students conduct a class mini-interview.

Materials:

Job vocabulary cards, daily routine picture cards, interview worksheet.

How to Teach This Session:

1. Warm-up (10 min): Mime a job — students guess. Repeat with 6 jobs: teacher, doctor, chef, farmer, driver, engineer.
2. Grammar Input (25 min): Teach 3rd person 's': He works. She cooks. They play. Contrast with I/You forms.
3. Vocabulary in Context (20 min): Students match job cards to routines cards ('A chef cooks. A teacher teaches.').
4. Interview Activity (25 min): Students use interview worksheet to ask 3 partners about their family's jobs.
5. Reporting (20 min): Groups share: 'Her father is a doctor. He helps sick people.'
6. Wrap-up (20 min): Journal entry — students write 3 sentences about what their family does.

Session 8 — Family Connections: A Story We Tell

Session Objectives:

- Sequence events using 'first, then, after that, finally'.
- Tell a short story about their family.
- Practise listening for key information.

Expected Outcomes:

- Students produce a 4–5 sentence spoken or written story.
- Students use at least 2 sequencing words correctly.
- Students demonstrate comprehension by answering 3 questions about a partner's story.

Materials:

Story sequencing cards, sentence frame scaffold posters, Inquiry Journals.

How to Teach This Session:

1. Warm-up (15 min): Teacher tells a short story about a family day using sequencing words + gestures.
2. Language Focus (20 min): Teach 'First, Then, After that, Finally.' Practise in chorus with actions.
3. Scaffold Practice (25 min): Students use sentence frame cards to build a spoken sequence about a family activity.
4. Story Writing (25 min): Students write and illustrate a 4-sentence story in their Inquiry Journal.
5. Story Circle (15 min): Students sit in a circle and share their stories. Class asks one follow-up question each.
6. Wrap-up (20 min): Reflect: 'What did you learn about a classmate's family today?'

WEEK 3

My School & My Classroom

Session 9 — School Places and Objects

Session Objectives:

- Identify school spaces: classroom, library, playground, canteen, office.
- Name 12+ school supply objects.
- Give simple directions: 'Go straight. Turn left/right. It's on the left.'

Expected Outcomes:

- Students correctly label a school map.
- Students give and follow 3-step directions.
- Students use 'have got' to describe their school bag contents.

Materials:

School map template, direction word cards, school object realia or pictures.

How to Teach This Session:

1. Warm-up (10 min): Hide objects around the classroom. Give directions to find them. Students model for each other.
2. Vocabulary Input (20 min): Introduce school places via a labelled school map. Students repeat and point.
3. Grammar Focus — Have Got (20 min): Teach 'I have got a pencil / She has got a ruler.' Contrast with objects students do or don't have.
4. Map Task (25 min): Students label their own school map and draw arrows showing how to go from classroom to library.
5. Directions Practice (25 min): Pairs take turns giving directions to school places using their maps.
6. Wrap-up (20 min): Each student writes 2 directions and 3 'I have got' sentences in their journal.

Session 10 — Rules, Routines & Responsibilities

Session Objectives:

- Understand and produce classroom rules using 'must/mustn't'.
- Describe a school routine using present simple and time expressions.
- Discuss why rules are important.

Expected Outcomes:

- Students produce 5+ rules using 'must/mustn't'.
- Students describe their school day using time expressions.
- Students contribute meaningfully to a class discussion.

Materials:

Rule picture cards, daily timetable template, scenario cards for discussion.

How to Teach This Session:

1. Warm-up (15 min): Show 3 'good' and 3 'bad' classroom scenarios. Students decide: 'Is this OK?' — elicit vocabulary.
2. Grammar Input (20 min): Teach 'must/mustn't'. Students create rules for 'ideal classroom' on a

poster.

3. Timetable Task (25 min): Students write their school timetable using 'At 8am I have English. At 10am I have...'

4. Discussion (20 min): Group asks 'Why do we have rules?' — students share ideas in English using 'I think because...'

5. Rules Poster (20 min): Groups design a classroom rules poster with drawings and 5 must/mustn't sentences.

6. Wrap-up (20 min): Gallery walk — students view all posters and vote on the clearest one.

Session 11 — What I Learn and Why I Learn It

Session Objectives:

- Name school subjects and give opinions about them.
- Use 'because' to justify opinions.
- Ask and answer 'What is your favourite subject? Why?'

Expected Outcomes:

- Students express preferences using 'I prefer... because...'
- Students conduct a class subject survey and report findings.
- Students write 4–5 sentences about school subjects.

Materials:

Subject flashcards, survey grid template, opinion sentence starters.

How to Teach This Session:

1. Warm-up (10 min): Mime a school subject — students guess (e.g., counting = maths, painting = art).
2. Vocabulary Drill (20 min): Introduce 8 subjects. Use flashcards and mime. Students repeat and add gestures.
3. Language Focus (20 min): Model opinion structure: 'My favourite subject is science because it is interesting.'
4. Survey Activity (25 min): Each student surveys 5 peers. They record data on their grid.
5. Data Reporting (25 min): Groups analyse their survey and report: '4 students like Maths. 2 students prefer Art.'
6. Wrap-up (20 min): Journal writing: 'My favourite subject is ____ because _____. I don't like ____ because _____'

Session 12 — A Day at My School: The Story Map

Session Objectives:

- Sequence a full school day using time and sequencing language.
- Produce a written and illustrated story map.
- Develop awareness of narrative structure (beginning, middle, end).

Expected Outcomes:

- Students produce a 6-step illustrated sequence of their school day.
- Students use time expressions and sequencing words accurately.
- Students read their story map aloud with confidence.

Materials:

Story map template (6 boxes), sequencing word strip, colour pencils.

How to Teach This Session:

1. Warm-up (15 min): Watch a short animated clip of a character's school day. Students identify the sequence.
2. Modelling (20 min): Teacher creates a story map on the board of her own school day, labelling each box.
3. Student Work Time (30 min): Students create their 6-box story map — write and illustrate each step.
4. Peer Sharing (20 min): Students pair up and narrate their story map. Partner asks one question.
5. Class Gallery (15 min): Story maps are pinned up. Students do a gallery walk and write one 'star' comment.
6. Wrap-up (20 min): Class reflection — 'What was the most interesting school day story you heard today?'

WEEK 4

Food & My World

Session 13 — Foods I Know

Session Objectives:

- Name 20+ food items across categories (fruit, vegetables, dairy, protein, grains).
- Use countable and uncountable nouns with 'some/any'.
- Ask and answer 'Do you have any...? / There is some...'

Expected Outcomes:

- Students correctly classify 20+ foods into categories.
- Students produce 5 sentences using 'some/any'.
- Students use food vocabulary in a shopping roleplay.

Materials:

Food flashcards, category sorting mats, shopping roleplay script frames.

How to Teach This Session:

1. Warm-up (10 min): 'Mystery bag' — teacher pulls out plastic food items/pictures one by one. Students name and categorise.
2. Vocabulary Sorting (20 min): Students sort 20 food cards into 5 category columns on a mat.
3. Grammar Input (25 min): Teach countable vs. uncountable nouns and 'some/any' rules with clear examples and charts.
4. Roleplay Prep (15 min): Distribute shopping list prompts. Practise key phrases: 'Do you have any eggs? Yes, we have some eggs.'
5. Roleplay (25 min): Pairs do a market/supermarket roleplay. One is a shopkeeper, one is a customer.
6. Wrap-up (25 min): Journal entry — students draw and label their ideal meal using food vocabulary.

Session 14 — Healthy vs. Unhealthy

Session Objectives:

- Distinguish healthy and unhealthy foods using evidence.
- Use adjectives to describe food: sweet, salty, crunchy, fresh, greasy.
- Express opinions about food choices.

Expected Outcomes:

- Students correctly classify 10 foods as healthy or unhealthy with a reason.
- Students produce: 'I think chips are unhealthy because they are greasy and salty.'
- Students create a personalised healthy eating plan.

Materials:

Healthy/unhealthy food sorting cards, food adjective word wall, healthy plate template.

How to Teach This Session:

1. Warm-up (15 min): Play 'Healthy or Unhealthy?' — teacher holds up a food image and students run to the correct side of the room.
2. Vocabulary Expansion (20 min): Introduce taste/texture adjectives. Students match words to

foods.

3. Opinion Language (20 min): Teach 'I think... because...' and 'In my opinion...' for expressing food preferences.

4. Healthy Plate Task (25 min): Students fill in the 'My Healthy Plate' template with drawn/labelled foods per portion group.

5. Debate (20 min): Mini class debate — 'Should schools ban unhealthy food?' Students argue for/against.

6. Wrap-up (20 min): Exit reflection — students write two sentences about what they will eat more/less of.

Session 15 — Where Does Food Come From?

Session Objectives:

- Trace the origin of 5 foods from farm/nature to table.
- Use passive-like structures: 'Bread is made from wheat.'
- Develop inquiry skills: ask 'Where does ____ come from?'

Expected Outcomes:

- Students correctly trace the origin of 5 foods.
- Students produce 3 sentences using the 'is made from' structure.
- Students create a simple food journey diagram.

Materials:

Food journey cards (wheat → bread, milk → cheese, etc.), world map poster, diagram template.

How to Teach This Session:

1. Warm-up (15 min): Hold up a glass of milk. Ask 'Where does this come from?' — lead inquiry discussion about food origins.
2. Input — Food Journeys (25 min): Use picture cards to trace 3 food journeys step-by-step. Students sequence the cards.
3. Language Focus (20 min): Introduce 'is made from' and practice with choral drills and written examples.
4. Research Inquiry (25 min): Groups are assigned one food. They discuss and agree on its journey, drawing it on their diagram template.
5. Presentations (15 min): Each group shares their food journey in 3 sentences.
6. Wrap-up (20 min): Students add a 'Did you know?' fact about a food to their Inquiry Journal.

Session 16 — PROJECT 1: My Food Inquiry Poster ★ PROJECT SESSION

Session Objectives:

- Apply vocabulary and language from the food unit to create an original project.
- Demonstrate comprehension through a visual and oral presentation.
- Self-assess using a simple rubric.

Expected Outcomes:

- Students produce a poster showing: food categories, one food journey, and a healthy meal plan.
- Students present their poster in 5–8 spoken sentences.
- Students use peer feedback to identify one strength and one improvement.

Materials:

A3 poster boards, colour pencils/markers, food magazines for collage (optional), rubric handouts.

How to Teach This Session:

1. Introduction & Rubric Review (15 min): Distribute rubric. Walk through each criterion with examples. Answer questions.
2. Planning Time (20 min): Students plan their poster layout in their journal first — sections, content, visuals.
3. Poster Creation (40 min): Students create their posters independently. Teacher circulates, prompts with questions, avoids correcting at this stage.
4. Gallery Presentation (25 min): Half the class stands by their posters. The other half walks around and asks one question per poster. Then switch.
5. Peer Feedback (20 min): Students complete a peer feedback card: 'I liked... / One idea to improve...'
6. Teacher Assessment & Wrap-up (20 min): Teacher notes performance on rubric. Class discusses: 'What was easy? What was hard?'

WEEK 5

Animals Around Us

Session 17 — Wild & Pet Animals

Session Objectives:

- Name and classify 20 animals as wild, farm, or pet.
- Describe animals using adjectives: big, small, fast, slow, dangerous, friendly.
- Use 'can/can't' to describe animal abilities.

Expected Outcomes:

- Students classify 20 animals correctly.
- Students produce: 'A cheetah is fast. It can run but it can't fly.'
- Students complete a comparative animal fact file.

Materials:

Animal flashcards, classification mat, can/can't ability chart template.

How to Teach This Session:

1. Warm-up (10 min): Play animal sounds — students identify the animal and its habitat category.
2. Vocabulary Input (20 min): Present animals in categories. Use actions and sounds to make vocabulary memorable.
3. Can/Can't Practice (25 min): Introduce abilities. Students create a 'Can/Can't' chart for 5 animals.
4. Fact File Activity (25 min): Each student fills in an animal fact file: name, category, abilities, description.
5. Partner Quiz (20 min): Partners close their charts and quiz each other: 'Can a dolphin fly? No, it can't.'
6. Wrap-up (20 min): Journal — 'My favourite animal is ____ because _____. It can ____ but it can't ____.'

Session 18 — Animal Habitats & Survival

Session Objectives:

- Identify animal habitats: ocean, jungle, desert, grassland, Arctic.
- Explain why animals live in their habitats.
- Use 'because' and 'so' to give reasons.

Expected Outcomes:

- Students match 10 animals to their correct habitats.
- Students produce 3 habitat explanation sentences.
- Students demonstrate awareness of adaptation.

Materials:

Habitat scene cards, animal-habitat match worksheet, 'adaptation' concept cards.

How to Teach This Session:

1. Warm-up (15 min): Project images of 5 habitats. Students shout out animals they think live there.
2. Input — Habitats (20 min): Explain each habitat and its climate. Students take notes in their

journals.

3. Matching Activity (20 min): Students match animal cards to habitat cards and justify: 'Camels live in deserts because it is hot and dry.'

4. Inquiry Question (25 min): 'How do animals survive in their habitats?' — groups brainstorm 3 ways for one animal.

5. Group Share (20 min): Groups present their adaptation ideas. Class adds to a shared chart.

6. Wrap-up (20 min): Creative drawing — 'Design an imaginary animal for a habitat of your choice. Explain its adaptations.'

Session 19 — Animals in Danger

Session Objectives:

- Identify 5 endangered animals and the reasons they are at risk.
- Use 'because of' and 'due to' to express cause.
- Write a short persuasive sentence to protect an animal.

Expected Outcomes:

- Students name 5 endangered animals and their threats.
- Students write 3 cause-and-effect sentences.
- Students produce a short persuasive sentence: 'We must protect ____ because ____'

Materials:

Endangered species fact cards, world map, cause-and-effect graphic organiser.

How to Teach This Session:

1. Warm-up (10 min): Show students a 'before and after' comparison of an endangered habitat. Ask 'What happened here?'
2. Vocabulary Input (20 min): Introduce: endangered, extinction, deforestation, pollution, hunting. Use images.
3. Cause-Effect Organiser (25 min): Students fill in a graphic organiser for 3 animals showing the problem and effect.
4. Language Focus (20 min): Teach 'because of' and 'due to'. Practise sentences: 'Tigers are endangered due to deforestation.'
5. Persuasive Writing (25 min): Students write one paragraph defending one endangered animal and why it needs protecting.
6. Wrap-up (20 min): 'Animal of the Week' vote — class chooses one endangered animal to spotlight on the class wall.

Session 20 — My Animal Research Page

Session Objectives:

- Apply research language: 'According to my research, ...'
- Organise information into logical categories.
- Present findings clearly to a small group.

Expected Outcomes:

- Students complete an organised animal research page.
- Students use at least 5 new vocabulary items from the week.
- Students deliver a 1-minute group presentation.

Materials:

Research page template, encyclopaedia sheets or teacher-prepared fact sheets, coloured pencils.

How to Teach This Session:

1. Warm-up (10 min): Quick review game — 'Animal Bingo' using vocabulary from the week.
2. Research Page Introduction (15 min): Model a completed research page on the board. Explain each section.
3. Research & Writing (40 min): Students complete their page using fact sheets provided. Teacher supports vocabulary.
4. Small Group Presentations (30 min): Groups of 3–4. Each student presents their animal in 1 minute.
5. Group Discussion (15 min): Groups compare animals — 'My animal is faster/bigger/more dangerous than yours because...'
6. Wrap-up (20 min): Journal reflection — 'One new thing I learned about animals this week is...'

WEEK 6

My Body & Health

Session 21 — Parts of the Body

Session Objectives:

- Name 20+ body parts including internal concepts (heart, lungs).
- Use 'have got' to describe physical features.
- Describe symptoms using 'I have a headache/stomachache.'

Expected Outcomes:

- Students label a body diagram with 20+ parts.
- Students produce 4 sentences using 'have got' for appearance.
- Students roleplay a doctor-patient conversation.

Materials:

Body diagram poster, symptom cards, doctor-patient script scaffold.

How to Teach This Session:

1. Warm-up (10 min): 'Head, Shoulders, Knees and Toes' song + extended version with more body parts.
2. Vocabulary Input (20 min): Label body diagram collaboratively. Add 'internal' parts with a layered diagram.
3. Grammar — Have Got (20 min): Describe a character: 'She has got blue eyes and long hair.' Students practise in pairs.
4. Health Vocabulary (25 min): Teach illness vocabulary. Students match symptoms to conditions on cards.
5. Doctor Roleplay (25 min): Pairs use script scaffold for a doctor-patient conversation. Perform for another pair.
6. Wrap-up (20 min): Journal — students draw and label a self-portrait with 10+ body part labels.

Session 22 — Staying Healthy

Session Objectives:

- Identify habits that promote physical and mental health.
- Use frequency adverbs: always, usually, sometimes, never.
- Evaluate their own health habits using a self-assessment chart.

Expected Outcomes:

- Students produce 5 sentences using frequency adverbs.
- Students complete a personalised health habit chart.
- Students set one realistic health goal.

Materials:

Health habit picture cards, frequency adverb chart, habit tracker template.

How to Teach This Session:

1. Warm-up (15 min): 'True or False' health quiz — fun facts about sleep, exercise, water intake.
2. Vocabulary Input (20 min): Present 10 healthy habits with images. Students rate each: healthy, very healthy, unhealthy.

3. Grammar Focus (20 min): Teach frequency adverbs. Students place them in sentences on the board as a group.
4. Self-Assessment (25 min): Students fill in a weekly habit tracker about their own routines.
5. Goal Setting (20 min): Students write one goal: 'I want to ___ more/less because ___.'
6. Wrap-up (20 min): Partner share of health goals. Teacher facilitates a class discussion on strategies.

Session 23 — At the Doctor

Session Objectives:

- Use 'should/shouldn't' for advice.
- Describe symptoms clearly.
- Give and follow health advice in a roleplay.

Expected Outcomes:

- Students produce 4 sentences using 'should/shouldn't' for health advice.
- Students successfully conduct a 3-turn doctor-patient exchange.
- Students write a health advice note to an imaginary friend.

Materials:

Doctor-patient roleplay cards, illness scenario cards, advice note template.

How to Teach This Session:

1. Warm-up (10 min): Watch or read a short illustrated story about a sick character. Discuss what the character should do.
2. Grammar Input (20 min): Teach should/shouldn't. Use illness flashcards: 'You have a cold. You should rest. You shouldn't go outside.'
3. Roleplay Preparation (25 min): Students receive scenario cards and prepare their roleplay with sentence frame support.
4. Roleplay Performance (25 min): Pairs perform roleplays. Two pairs combine to watch each other and give 'star and wish' feedback.
5. Writing Activity (20 min): Students write a health advice note: 'Dear Marco, I heard you have a fever. You should... You shouldn't...'
6. Wrap-up (20 min): Class builds a 'Health Advice Board' — each student contributes one advice tip.

Session 24 — Our Body, Our Questions

Session Objectives:

- Formulate inquiry questions about the human body.
- Find and record key information from a given text.
- Share findings using clear spoken sentences.

Expected Outcomes:

- Students produce 3 inquiry questions about the body.
- Students extract 4 key facts from a text.
- Students present one body fact to the class.

Materials:

Simple levelled-reading texts on the human body, inquiry question stems, fact-finding worksheet.

How to Teach This Session:

1. Warm-up (15 min): 'Amazing body facts' quiz — teacher reads facts, students answer true/false. Generates curiosity.
2. Inquiry Question Brainstorm (20 min): Students use question stems ('How does ____ work? Why does the body ____?') to generate questions.
3. Text Exploration (30 min): Students read their assigned text and highlight answers to their questions.
4. Fact Recording (15 min): Students write 4 facts in their journals using 'According to the text...'
5. Sharing Circle (20 min): Each student shares one fact. Class votes on the most surprising fact of the day.
6. Wrap-up (20 min): Journal update — students write new questions that arose from their reading.

WEEK 7

Weather & The Four Seasons

Session 25 — Weather Words

Session Objectives:

- Name 8 weather conditions and use descriptive adjectives.
- Read a simple weather forecast.
- Use present continuous for current weather: 'It is raining.'

Expected Outcomes:

- Students produce weather descriptions using present continuous correctly.
- Students read and interpret a simple 5-day weather forecast chart.
- Students write a 3-sentence weather report.

Materials:

Weather flashcards, 5-day forecast chart template, weather map images.

How to Teach This Session:

1. Warm-up (10 min): Look out the window. 'What's the weather like today?' Students describe using known vocabulary.
2. Vocabulary Input (20 min): Teach 8 weather conditions with symbols. Choral drill with actions (shivering, fanning, etc.).
3. Grammar Focus (20 min): Present continuous for weather — 'It is snowing / raining / shining.' Drill and substitution exercise.
4. Forecast Reading (25 min): Students read a 5-day forecast chart and answer comprehension questions.
5. Weather Report (25 min): Students write and perform a short weather report: 'Good morning! Today in Muscat, it is sunny and hot...'
6. Wrap-up (20 min): Journal — students draw today's weather and write 3 sentences about it.

Session 26 — The Four Seasons

Session Objectives:

- Describe the four seasons using adjectives and present simple.
- Compare seasons using 'in summer/winter/spring/autumn...'
- Discuss how seasons affect daily life.

Expected Outcomes:

- Students produce a paragraph about their favourite season.
- Students use 4 season-specific vocabulary clusters.
- Students compare two seasons using comparative adjectives.

Materials:

Season picture cards, comparative adjective chart, season paragraph frame.

How to Teach This Session:

1. Warm-up (15 min): Show 4 pictures of the same park in each season. Ask students what changed. Elicit vocabulary.
2. Vocabulary Input (20 min): Teach season vocabulary clusters (e.g., winter: cold, snow, warm

clothes, short days).

3. Grammar — Comparatives (20 min): 'Summer is hotter than winter. Spring is more colourful than autumn.' Students create 5 comparisons.

4. Paragraph Writing (25 min): Students write about their favourite season using a paragraph frame.

5. Pair Compare (15 min): Students compare paragraphs — 'My season is better because...' Light debate format.

6. Wrap-up (25 min): Class seasons wheel — each student contributes one drawing and label to a large class poster.

Session 27 — Weather and What We Do

Session Objectives:

- Connect weather conditions to activities and clothing.
- Use first conditional: 'If it rains, I will stay inside.'
- Describe how weather affects mood and routine.

Expected Outcomes:

- Students produce 5 conditional sentences about weather.
- Students link clothing items to weather appropriately.
- Students complete a weather-activity matching task.

Materials:

Weather-activity scenario cards, clothing flashcards, conditional sentence frame strips.

How to Teach This Session:

1. Warm-up (10 min): 'What would you do?' game — teacher says a weather condition, students mime an activity.
2. Clothing Input (20 min): Teach weather-related clothing. Students match clothing to weather on a chart.
3. Grammar Focus — First Conditional (25 min): Teach 'If + present, will + infinitive.' Students build sentences with condition and result cards.
4. Activity Match (20 min): Students match weather conditions to suitable outdoor/indoor activities.
5. Writing Practice (25 min): Students write 5 conditional sentences about their own weather choices.
6. Wrap-up (20 min): Journal — 'If tomorrow is ____, I will _____. I will wear ____ because ____'

Session 28 — My Weather Journal

Session Objectives:

- Record and describe weather observations over a period.
- Use past simple to report on weather events.
- Practise extended writing with weather as a topic.

Expected Outcomes:

- Students produce a 5-day weather journal with daily observations.
- Students use past simple correctly to describe last week's weather.
- Students present their journal to a partner with clear spoken descriptions.

Materials:

Weather journal template (5 pages), weather vocabulary bank, past simple reference chart.

How to Teach This Session:

1. Warm-up (15 min): Review past simple. Quick transformation drill: 'It is raining → Yesterday it rained.'
2. Journal Introduction (20 min): Show a model completed weather journal. Identify key elements.
3. Writing Time (35 min): Students complete their 5-day journal using their tracked observations. Teacher supports vocabulary.
4. Peer Sharing (20 min): Pairs exchange journals and describe the observations aloud.
5. Class Weather Report (10 min): Students take turns reading one journal entry as a 'news reporter.'
6. Wrap-up (20 min): Reflection — 'What was the most interesting weather event this week? What did you learn about weather?'

WEEK 8

Colors, Shapes & Patterns — The World is Beautiful

Session 29 — Colors in Our World

Session Objectives:

- Name primary, secondary, and tertiary colours.
- Describe objects using colour adjectives in full sentences.
- Connect colours to emotions and cultural meanings.

Expected Outcomes:

- Students correctly name 12+ colour names.
- Students produce 5 descriptive sentences using colours.
- Students discuss the cultural meaning of one colour.

Materials:

Colour wheel poster, colour emotion cards, cultural colour examples (flags, art, clothing).

How to Teach This Session:

1. Warm-up (10 min): 'I spy' game using colours. Students describe objects in the room.
2. Colour Input (20 min): Teach colour families using the colour wheel. Students mix primary colours and predict results.
3. Colour and Emotion (25 min): Discuss: 'Blue can feel calm. Red can feel energetic.' Students choose a colour for each emotion.
4. Cultural Exploration (20 min): Show how colours have different meanings across cultures (e.g., white = purity in some; mourning in others).
5. Descriptive Writing (25 min): Students write 5 sentences describing their favourite colourful place or object.
6. Wrap-up (20 min): Class creates a 'Colour Mood Board' — students contribute one colour + emotion label.

Session 30 — Shapes Everywhere

Session Objectives:

- Name and describe 2D and basic 3D shapes.
- Identify shapes in real-world objects.
- Use shape + size + colour in descriptive sentences.

Expected Outcomes:

- Students name 10+ shapes and their properties.
- Students describe 3 real-world objects using shape-size-colour formula.
- Students complete a shapes in nature scavenger hunt.

Materials:

Shape flashcards, property chart, scavenger hunt worksheet.

How to Teach This Session:

1. Warm-up (10 min): Teacher draws shapes on the board. Students name them. Then students draw one from memory.

2. Shape Properties (25 min): Introduce properties: sides, corners, faces. Students complete a shape properties chart.
3. Real-World Connection (20 min): Students find 3 shapes in the classroom and describe them: 'The door is a large brown rectangle.'
4. Scavenger Hunt (25 min): Students walk around the school/building and record shapes they find in nature and architecture.
5. Reporting (20 min): Groups share findings. 'We found 4 circles and 7 rectangles. The most common shape was...'
6. Wrap-up (20 min): Journal — students draw a 'shape portrait' of themselves using only geometric shapes.

Session 31 — Patterns in Nature and Art

Session Objectives:

- Identify and describe repeating patterns in nature and art.
- Use sequence language: 'first, then, repeats'.
- Create and describe their own pattern.

Expected Outcomes:

- Students identify patterns in 5 examples from nature and art.
- Students create their own colour/shape pattern.
- Students describe their pattern in 3 sentences.

Materials:

Pattern cards (natural and artistic), blank design grid, coloured pencils/markers.

How to Teach This Session:

1. Warm-up (15 min): Show images of tiger stripes, honeycombs, tile art. Ask 'What do you notice? What repeats?'
2. Pattern Input (20 min): Define patterns. Discuss: 'In nature, patterns help animals survive.' Students identify patterns in images.
3. Art Connection (20 min): Show Islamic geometric art, African kente cloth, and Japanese patterns as cultural examples.
4. Create Your Pattern (30 min): Students design their own pattern using the grid, choosing colours and shapes.
5. Description Writing (15 min): Students write 3 sentences describing their pattern: 'My pattern starts with a blue circle, then...'
6. Wrap-up (20 min): Patterns gallery — patterns are displayed. Students vote on the most creative design.

Session 32 — PROJECT 2: My World in Colours and Shapes ★ PROJECT SESSION

Session Objectives:

- Apply colour, shape, and pattern vocabulary in a creative project.
- Produce a labelled visual artwork with descriptive writing.
- Present work confidently and respond to questions.

Expected Outcomes:

- Students create and label an original artwork using at least 5 colours and 6 shapes.
- Students write a 6-sentence description of their artwork.

- Students respond to 2 questions from peers during presentation.

Materials:

A3 art paper, markers/coloured pencils/pastels, description writing frame, peer assessment cards.

How to Teach This Session:

1. Task Introduction (15 min): Explain the project. Show a model — a teacher-made artwork with description. Distribute rubric.
2. Planning (15 min): Students sketch a plan in their journals first. Teacher checks for ambition and clarity.
3. Artwork Creation (40 min): Students create their final artwork. Teacher circulates with prompting questions only.
4. Writing Description (20 min): Students write their 6-sentence description on a card to display alongside the art.
5. Presentation Pairs (20 min): Each student presents to a partner. Partner asks 2 questions from a question card.
6. Assessment & Reflection (10 min): Teacher assesses. Students self-rate: 'I used lots of vocabulary / I tried my best / I want to improve ____'

WEEK 9

My Community

Session 33 — Places in My Town

Session Objectives:

- Name 15 community places and their purposes.
- Give directions using imperative verbs and prepositions.
- Follow a set of directions to find a location on a map.

Expected Outcomes:

- Students label a town map with 15 places.
- Students give and follow 4-step directions correctly.
- Students roleplay asking for and giving directions.

Materials:

Town map template, direction word bank, direction roleplay cards.

How to Teach This Session:

1. Warm-up (10 min): Students draw their street from memory. Share with a partner: 'On my street there is a...'
2. Vocabulary Input (20 min): Present 15 community places with flashcards. Students repeat and explain each place's purpose.
3. Directions Language (25 min): Teach direction imperatives + prepositions. Whole-class practice using a projected map.
4. Map Completion (20 min): Students complete their town map by labelling and following clues.
5. Directions Roleplay (25 min): Pairs roleplay 'tourist and local' — one asks for directions, the other gives them.
6. Wrap-up (20 min): Class builds a 'Community Map Wall' — each student adds one labelled place.

Session 34 — People Who Help Us

Session Objectives:

- Name 12 community helpers and describe their responsibilities.
- Use 'whose' to ask and answer questions about roles.
- Express gratitude and appreciation.

Expected Outcomes:

- Students match helpers to responsibilities in writing.
- Students produce 3 sentences with 'whose'.
- Students write a thank-you note to a community helper.

Materials:

Community helper cards, responsibility matching worksheet, thank-you note template.

How to Teach This Session:

1. Warm-up (10 min): 'Who am I?' guessing game — teacher gives clues about a community helper.
2. Vocabulary Input (20 min): Present 12 helpers. For each: name, role, equipment, where they

work.

3. Grammar Focus — Whose (20 min): Teach 'whose' possessive question: 'Whose job is it to put out fires? A firefighter's.'

4. Matching Task (25 min): Students match helpers to responsibilities, equipment, and workplace on a card sort.

5. Thank-You Note (25 min): Students write a thank-you note to a chosen community helper using a template.

6. Wrap-up (20 min): Students share their notes aloud. Class votes on the most touching note.

Session 35 — My Community, My Responsibility

Session Objectives:

- Discuss the concept of civic responsibility.
- Use modals: should, can, must for community responsibility.
- Develop ideas for improving their community.

Expected Outcomes:

- Students produce 5 sentences about community responsibilities.
- Students identify 3 problems in their community and suggest solutions.
- Students write a 'community pledge' in English.

Materials:

Community issue cards, problem-solution graphic organiser, pledge template.

How to Teach This Session:

1. Warm-up (15 min): Show 'good vs. bad' community photos. Ask: 'What's wrong? How can we fix it?'
2. Concept Discussion (15 min): Introduce 'civic responsibility' in simple terms. Ask 'What can we do to help our community?'
3. Modal Practice (25 min): Students write problem-solution pairs using modals: 'There is litter. We must clean it up.'
4. Problem-Solution Task (25 min): Groups brainstorm 3 community issues and 3 solutions using graphic organiser.
5. Pledge Writing (20 min): Students write a personal community pledge: 'I promise to ____ because ____.'
6. Wrap-up (20 min): Class shares pledges. Create a 'Class Community Charter' on a poster.

Session 36 — Community Heroes Project Prep

Session Objectives:

- Research and organise information about a chosen community helper.
- Plan a short oral presentation.
- Practise self-monitoring of spoken English.

Expected Outcomes:

- Students complete a research organiser about their chosen helper.
- Students produce a 5-sentence presentation draft.
- Students self-monitor using a checklist.

Materials:

Research organiser template, presentation planning card, self-monitoring checklist.

How to Teach This Session:

1. Warm-up (10 min): Revisit vocabulary and language from the week. Quick class brainstorm on the board.
2. Research Task (25 min): Students choose a community helper and complete a research organiser using provided fact sheets.
3. Presentation Planning (25 min): Students draft their presentation: introduction, 3 facts, and why this person matters.
4. Practice Pairs (25 min): Students rehearse presenting to a partner. Partner uses checklist to give feedback.
5. Self-Monitoring (15 min): Students rate themselves on: vocabulary use, sentence structure, volume, eye contact.
6. Wrap-up (20 min): Journal — 'My community hero is ____ because _____. One thing I want to improve before presenting is _____'

WEEK 10

Transport & Travel

Session 37 — Types of Transport

Session Objectives:

- Name 15 types of transport and classify them (land, sea, air).
- Use 'by + transport' and 'on/in' prepositions correctly.
- Compare transport using comparative and superlative adjectives.

Expected Outcomes:

- Students classify 15 transport types and use correct prepositions.
- Students produce 3 comparative and 3 superlative sentences.
- Students discuss the advantages of different transport types.

Materials:

Transport flashcards, classification grid, comparative sentence frames.

How to Teach This Session:

1. Warm-up (10 min): Teacher mimes using different transport. Students guess and name.
2. Vocabulary Input (20 min): Present transport types in categories. Drill prepositions: 'I travel by car. I go on a plane. I ride in a taxi.'
3. Comparison Focus (25 min): Teach comparatives and superlatives. Students write sentences comparing transport.
4. Discussion (20 min): Groups discuss: 'What is the best transport for going to school? Why?'
5. Writing Task (25 min): Students write a paragraph: 'My favourite way to travel is ____ because _____. It is _____ than _____.'
6. Wrap-up (20 min): Class poll — 'Most exciting transport? Most useful transport?' Tally and discuss results.

Session 38 — Going on a Journey

Session Objectives:

- Narrate a past journey using past simple.
- Sequence a travel story using time connectives.
- Use travel vocabulary: departure, arrival, ticket, passport, gate.

Expected Outcomes:

- Students produce a 6-sentence travel story using past tense.
- Students correctly use 5+ travel vocabulary items.
- Students successfully roleplay at an airport/bus station.

Materials:

Journey picture sequence cards, travel vocabulary word wall, airport roleplay script.

How to Teach This Session:

1. Warm-up (10 min): Teacher describes a journey she took (real or imagined). Students draw the journey as they listen.
2. Travel Vocabulary (20 min): Teach travel vocab in context using airport/train station images.
3. Past Simple Review (25 min): Students sequence picture cards of a journey and write a

caption for each.

4. Story Writing (25 min): Students write a 6-sentence journey story: 'Last summer, I travelled to...'

5. Airport Roleplay (20 min): Pairs use role cards (passenger, check-in agent, security officer) to roleplay a journey.

6. Wrap-up (20 min): Journal — students draw their dream trip destination and write where they would go and why.

Session 39 — Countries, Flags & Cultures

Session Objectives:

- Name and locate 10 countries on a world map.
- Describe nationality using '-ity / -ian / -ish / -ese' suffixes.
- Share basic cultural facts about a country.

Expected Outcomes:

- Students correctly identify 10 countries on a map.
- Students produce nationality adjectives for 10 countries.
- Students present 3 facts about one country.

Materials:

World map, flag cards, nationality suffix chart, country fact sheets.

How to Teach This Session:

1. Warm-up (10 min): 'Flag quiz' — show flags, students identify the country.
2. Countries & Nationalities (25 min): Teach nationalities with suffix patterns. Students practice transformations.
3. Map Activity (20 min): Students locate 10 countries on their map and write the nationality beside each.
4. Country Research (25 min): Each student picks a country and finds 3 facts using provided fact sheets.
5. Fact Sharing (20 min): Speed 'travel fair' — students move around and share country facts.
6. Wrap-up (20 min): Class 'Passport' — students design a passport page for their chosen country.

Session 40 — Plan Your Dream Trip

Session Objectives:

- Write a simple itinerary using future 'will' and 'going to'.
- Use time expressions for planning: on Monday, in the morning, at 3pm.
- Discuss travel plans with a partner.

Expected Outcomes:

- Students produce a 3-day trip itinerary with activities and times.
- Students correctly use 'will' and 'going to' in context.
- Students present their trip to a small group.

Materials:

Itinerary template, future grammar chart, travel brochure images.

How to Teach This Session:

1. Warm-up (10 min): Show a funny 'bad trip' scenario — hotel is wrong, weather is bad. Students suggest how to improve it.
2. Future Tenses (20 min): Teach 'will' (spontaneous decisions) vs 'going to' (planned). Students categorise example sentences.
3. Itinerary Template (25 min): Show a model 3-day itinerary. Students write their own with 3 activities per day.
4. Partner Discussion (25 min): Pairs compare itineraries. 'I am going to visit the museum on Monday. On Tuesday I will...'
5. Group Share (20 min): Groups of 4 present their trips. Others vote on the trip they'd most like to join.
6. Wrap-up (20 min): Journal — students glue or draw a postcard from their imaginary trip destination.

WEEK 11

Celebrations & Culture

Session 41 — Celebrations Around the World

Session Objectives:

- Describe 6 global celebrations and their key features.
- Use present simple for customs and traditions.
- Ask and answer questions about celebrations.

Expected Outcomes:

- Students describe 3 celebrations using present simple.
- Students identify cultural similarities and differences.
- Students write 4 sentences about a celebration they know.

Materials:

Celebration picture cards, traditions comparison chart, vocabulary bank.

How to Teach This Session:

1. Warm-up (10 min): Show images of celebrations without names. Students guess: 'What is this? Where is it?'
2. Vocabulary Input (20 min): Teach celebration vocabulary: festival, tradition, decorate, ceremony, costume, fireworks.
3. Information Gap (25 min): Pairs receive different celebration cards. They describe theirs and find similarities.
4. Writing Activity (25 min): Students write about a celebration they know, including: what, when, who, how, food, clothes.
5. Listening (10 min): Listen to a short audio or teacher narration about an unfamiliar celebration. Students take notes.
6. Wrap-up (20 min): Class 'Celebrations Wall' — each student contributes one drawing and caption.

Session 42 — Traditional Food and Clothing

Session Objectives:

- Describe traditional food and clothing from different cultures.
- Use adjectives for texture, colour, material, and taste.
- Express respect and curiosity about other cultures.

Expected Outcomes:

- Students describe 2 traditional foods and 2 traditional garments.
- Students use 6+ adjectives accurately.
- Students write a respectful 'cultural discovery' paragraph.

Materials:

Food and clothing image cards, multi-sense adjective chart, discovery paragraph frame.

How to Teach This Session:

1. Warm-up (15 min): Bring or show an image of a traditional item from a culture. Ask students to describe using senses.
2. Vocabulary Expansion (20 min): Teach adjectives for material (silk, wool, cotton), texture, and

taste (spicy, tangy, rich).

3. Cultural Exploration (25 min): Groups each receive a culture card. They describe the food and clothing using adjectives.

4. Writing (20 min): Students write a 'cultural discovery' paragraph about something they found interesting.

5. Discussion (20 min): 'Why is it important to respect other cultures?' Students share opinions.

6. Wrap-up (20 min): Class cultural map — groups pin their culture card to a world map with one food + one clothing fact.

Session 43 — My Favourite Celebration

Session Objectives:

- Describe their own cultural celebration in detail.
- Use a range of past, present, and future tenses.
- Organise ideas into a structured spoken or written text.

Expected Outcomes:

- Students produce a 6-sentence description of a personal celebration.
- Students use at least 3 tenses accurately.
- Students ask a classmate 2 questions about their celebration.

Materials:

Celebration description frame, vocabulary support cards, Inquiry Journal.

How to Teach This Session:

1. Warm-up (10 min): Students draw their favourite celebration from memory. Display briefly and pair-share.
2. Vocabulary Activation (15 min): Students brainstorm vocabulary for their celebration using a word web.
3. Language Focus (20 min): Review mixed tense usage in context. Model a complete celebration description.
4. Writing Time (30 min): Students write their full celebration description using the frame as a guide.
5. Peer Interview (25 min): Pairs ask 2 prepared questions about each other's celebration.
6. Wrap-up (20 min): Students add their celebration entry to their Inquiry Journal with a drawing.

Session 44 — PROJECT 3: Culture Showcase Presentation ★ PROJECT SESSION

Session Objectives:

- Present a cultural tradition using organised spoken language.
- Demonstrate use of vocabulary and grammar from the unit.
- Practise listening and responding to audience questions.

Expected Outcomes:

- Students deliver a 2-minute presentation on a celebration or tradition.
- Students use a visual aid (poster, drawing, or object).
- Students answer 2 questions from the audience.

Materials:

Prepared student visuals, presentation rubric, peer assessment cards.

How to Teach This Session:

1. Set-Up (10 min): Arrange room as a 'showcase hall'. Students set up their visual aids.
2. Presentation Round 1 (30 min): Half the class presents. The other half rotates every 3–4 minutes to listen.
3. Switch (30 min): Groups switch roles. All students now have a chance to present and to listen.
4. Q&A Practice (20 min): After all presentations, pairs practise formal Q&A: 'Can you tell me more about...? How do people usually...?'
5. Teacher Assessment (20 min): Teacher notes observations on rubric during presentations. Students complete peer cards.
6. Reflection (10 min): Class discussion — 'What did you learn from a classmate's culture today?'

WEEK 12

Technology & Me

Session 45 — Gadgets and Devices

Session Objectives:

- Name 12 technological devices and explain their uses.
- Use 'is used for' and 'we use it to' structures.
- Discuss the benefits and drawbacks of technology.

Expected Outcomes:

- Students produce 6 sentences about technology purposes.
- Students classify 12 devices by category.
- Students give one benefit and one drawback of technology.

Materials:

Technology flashcards, purpose sentence frame, benefit-drawback T-chart.

How to Teach This Session:

1. Warm-up (10 min): 'Tech or No Tech?' — show objects from the past and present. Students identify which use technology.
2. Vocabulary Input (20 min): Teach 12 devices. Students categorise by function: communication, education, entertainment.
3. Language Focus (20 min): Teach 'is used for + gerund' and 'we use it to + infinitive'. Students practise both structures.
4. Tech Discussion (25 min): Groups debate: 'Is technology good for children?' Each side presents 2 arguments.
5. Writing (25 min): Students write a paragraph: 'I think technology is ____ because...' + one device they couldn't live without.
6. Wrap-up (20 min): Journal — students draw their favourite gadget and write 4 sentences about how they use it.

Session 46 — The Internet and Safety

Session Objectives:

- Describe what the internet is used for.
- Identify safe and unsafe online behaviour.
- Produce an internet safety pledge.

Expected Outcomes:

- Students categorise 10 online behaviours as safe or unsafe.
- Students produce 5 internet safety rules using modals.
- Students write and sign a personal online safety pledge.

Materials:

Online scenario cards, safety rule frame, pledge template.

How to Teach This Session:

1. Warm-up (10 min): Quick show of hands — 'How do you use the internet?' List responses on the board.
2. Internet Vocabulary (20 min): Teach: website, password, message, download, share, profile,

stranger.

3. Scenario Sorting (25 min): Students receive scenario cards and decide: 'Is this safe?' They explain why.

4. Safety Rules (20 min): Groups create 5 internet safety rules. Share and compile a class list.

5. Pledge Writing (25 min): Students write a personal online safety pledge with at least 5 commitments.

6. Wrap-up (20 min): 'Tech Safety Poster' — class collaborates on one large safety poster for the classroom wall.

Session 47 — Technology at School

Session Objectives:

- Describe how technology is used in education.
- Compare learning with and without technology.
- Express preferences and opinions about digital tools.

Expected Outcomes:

- Students give 3 examples of technology in education.
- Students produce a comparison using 'whereas / on the other hand'.
- Students write 4 sentences expressing opinions about learning with technology.

Materials:

Education technology images, comparison sentence starters, opinion paragraph frame.

How to Teach This Session:

1. Warm-up (10 min): 'Then and Now' — compare a 1950s classroom photo to today. Ask what changed.
2. Discussion Input (20 min): Explore: tablets, online videos, digital whiteboards, language apps. Students share experiences.
3. Comparison Language (25 min): Teach 'whereas' and 'on the other hand'. Students write 3 comparison sentences.
4. Opinion Writing (25 min): Students write: 'I think technology helps me learn because...'
5. Class Debate (10 min): Quick debate — 'Should students use phones in class?' Students vote and explain.
6. Wrap-up (20 min): Journal — students design their 'ideal classroom of the future' with 3 technology tools.

Session 48 — PROJECT 4: Tech Pros & Cons Report ★ PROJECT SESSION

Session Objectives:

- Organise ideas into a structured written report with pros and cons.
- Use comparison language, modals, and opinion vocabulary.
- Present a balanced argument in spoken and written form.

Expected Outcomes:

- Students produce a structured 8-sentence report on a technology topic.
- Students use at least 3 comparison or opinion structures.
- Students present their report to a partner and answer one question.

Materials:

Report writing frame, vocabulary reference bank, peer review checklist.

How to Teach This Session:

1. Review & Task Introduction (15 min): Revisit pros/cons structure. Distribute writing frame. Read aloud a model report.
2. Planning (15 min): Students brainstorm in their journal: 3 pros, 3 cons for their chosen technology topic.
3. Writing Time (40 min): Students write their full report using the frame. Teacher circulates and prompts.
4. Peer Review (20 min): Pairs exchange reports and use the checklist: structure, vocabulary, grammar, ideas.
5. Revision (15 min): Students revise based on feedback. Teacher notes final observations for assessment.
6. Sharing (15 min): Volunteers read their report aloud. Class gives 'two stars and a wish' feedback.

WEEK 13

Our Environment

Session 49 — Nature Around Us

Session Objectives:

- Identify natural landforms, ecosystems, and living things.
- Use descriptive adjectives for natural environments.
- Develop vocabulary for the natural world.

Expected Outcomes:

- Students name 15 elements of the natural world.
- Students write a 5-sentence description of a natural place.
- Students connect local nature to global environments.

Materials:

Nature image cards, descriptive adjective bank, environment description frame.

How to Teach This Session:

1. Warm-up (10 min): Nature sounds audio — students identify environments (forest, ocean, desert). Discuss.
2. Vocabulary Input (20 min): Teach landforms and ecosystems: mountain, valley, coral reef, rainforest, glacier.
3. Image Description (25 min): Students study a nature photograph and write 5 descriptive sentences.
4. Compare Environments (20 min): Groups compare two environments: 'The rainforest is ____ whereas the desert is ____'
5. Local Connection (25 min): Students discuss local natural environments in Oman and compare to other countries.
6. Wrap-up (20 min): Journal — students draw a favourite natural place and describe it in 3 sentences.

Session 50 — Protecting Our Planet

Session Objectives:

- Name 5 environmental problems and their causes.
- Use passive structures: 'The sea is being polluted by plastic.'
- Propose and justify solutions to environmental issues.

Expected Outcomes:

- Students produce 5 cause-and-effect sentences about environmental problems.
- Students use passive voice in 3 sentences.
- Students write a 4-sentence solution paragraph.

Materials:

Environmental problem picture cards, passive voice guide, solution planning template.

How to Teach This Session:

1. Warm-up (15 min): Show a striking image of environmental damage. Ask: 'What happened here? Who is responsible?'
2. Problem Vocabulary (20 min): Teach: deforestation, air pollution, ocean pollution, global

warming, habitat loss.

3. Passive Voice Focus (25 min): Introduce passive: 'Plastic is thrown into the ocean. Trees are cut down by companies.' Students transform active to passive.

4. Solution Planning (20 min): Groups brainstorm 3 solutions to one environmental problem using a planning template.

5. Writing (20 min): Students write a solution paragraph: 'One big problem is _____. It is caused by _____. We can solve it by _____.'

6. Wrap-up (20 min): Class environmental pledge — each student contributes one commitment sentence.

Session 51 — Reduce, Reuse, Recycle

Session Objectives:

- Understand and apply the 3R principles.
- Give instructions using imperative form.
- Design a recycling plan for their home or school.

Expected Outcomes:

- Students explain the 3Rs with examples.
- Students produce 5 imperative instruction sentences.
- Students produce a recycling plan with 3 actionable steps.

Materials:

3R concept cards, recycling plan template, sorting game materials.

How to Teach This Session:

1. Warm-up (10 min): Bring a bag of household items. Students sort into 'can recycle / can't recycle' categories.
2. 3R Input (20 min): Teach Reduce, Reuse, Recycle with vivid examples. Students create a 3-column list.
3. Grammar Focus — Imperatives (20 min): Teach imperative form for instructions: 'Don't use plastic bags. Sort your rubbish. Bring a reusable bottle.'
4. Recycling Plan (30 min): Students design a home/school recycling plan with 3 steps written as clear instructions.
5. Peer Feedback (20 min): Pairs exchange plans and suggest improvements: 'You could also _____.'
6. Wrap-up (20 min): Class recycles something symbolic — turn waste paper into a collaborative art piece.

Session 52 — Our Green Action Plan

Session Objectives:

- Create a collaborative environmental action plan.
- Use modals and future tenses in a planning context.
- Evaluate the impact of small actions on the environment.

Expected Outcomes:

- Groups produce a written and visual action plan with 5 steps.
- Students use future tense and modals throughout.
- Students present their plan and explain the expected impact.

Materials:

Action plan template, impact vocabulary bank, group presentation rubric.

How to Teach This Session:

1. Warm-up (10 min): Review: 'What can we do to help the planet?' Students contribute ideas rapidly on sticky notes.
2. Vocabulary Input (15 min): Teach impact words: reduce, prevent, save, protect, improve, decrease.
3. Group Planning (35 min): Groups of 3–4 collaborate on a Green Action Plan with 5 concrete, realistic steps.
4. Visual Design (20 min): Groups add drawings/icons to their plan to make it clear and visually appealing.
5. Group Presentations (30 min): Each group presents. Class uses a vote card: 'Which plan is most realistic? Most creative?'
6. Wrap-up (20 min): Journal — 'The most important thing I learned about the environment is ____.
I will change ____ in my life.'

WEEK 14

Sports & Hobbies

Session 53 — Sports and Games

Session Objectives:

- Name 15 sports and games and classify them.
- Use 'play, do, go' with sports correctly.
- Describe physical benefits of sports using 'makes you / helps you.'

Expected Outcomes:

- Students correctly use play/do/go with 15 sports.
- Students produce 5 sentences about sports benefits.
- Students engage in a class sports survey.

Materials:

Sports flashcards, play/do/go sorting chart, sports survey template.

How to Teach This Session:

1. Warm-up (10 min): Teacher mimes a sport — students guess and call out the name.
2. Vocabulary Input (20 min): Present 15 sports. Teach the rule: play (team/ball games), do (martial arts/gymnastics), go (-ing sports).
3. Sorting Game (20 min): Students sort sports cards into play/do/go columns. Whole class checks together.
4. Benefits Discussion (20 min): Ask: 'Why is sport good for you?' Teach: 'Swimming makes you strong / helps you relax.'
5. Class Survey (20 min): Students survey 6 peers: 'What sport do you play/do/go?' Then report findings.
6. Wrap-up (20 min): Journal — students write their personal sports profile: sports they play, watch, and want to try.

Session 54 — My Hobby

Session Objectives:

- Describe a personal hobby in detail.
- Use frequency expressions and time phrases.
- Listen actively and ask follow-up questions.

Expected Outcomes:

- Students produce an 8-sentence hobby description.
- Students use at least 3 frequency expressions.
- Students ask and answer 2 follow-up questions in a conversation.

Materials:

Hobby vocabulary bank, description paragraph frame, conversation question cards.

How to Teach This Session:

1. Warm-up (10 min): Show images of unusual hobbies. Students discuss: 'Could you do this? Would you enjoy it?'
2. Vocabulary Expansion (20 min): Extend hobby vocabulary beyond common items. Introduce:

knitting, coding, origami, astronomy, gardening.

3. Hobby Description Frame (25 min): Model a complete hobby description. Students write their own using the frame.

4. Conversation Practice (25 min): Students use question cards to have a natural conversation about their hobby.

5. Sharing (20 min): 3–4 volunteers share their hobby with the class. Class asks one follow-up question each.

6. Wrap-up (20 min): Create a class 'Hobby Map' — each student pins their hobby to a world map showing where it originated.

Session 55 — Sport Heroes and Inspirational People

Session Objectives:

- Describe a sports hero or inspirational figure using past simple.
- Use adjectives to describe character traits: determined, brave, dedicated.
- Express admiration using 'I admire / I am inspired by... because'

Expected Outcomes:

- Students produce a 6-sentence profile of a sports hero.
- Students use at least 4 character adjectives.
- Students explain why they find this person inspiring.

Materials:

Sports hero fact cards, character adjective bank, profile writing frame.

How to Teach This Session:

1. Warm-up (15 min): Teacher shares a short story about an inspiring athlete. Ask: 'What qualities made them great?'

2. Character Vocabulary (20 min): Teach adjectives for character. Students match adjectives to definitions.

3. Profile Reading (20 min): Students read 2 hero profiles and answer comprehension questions.

4. Profile Writing (25 min): Students write their own sports hero profile using the frame.

5. Sharing (20 min): Students read their profile to a partner. Partner identifies 2 character adjectives used.

6. Wrap-up (20 min): Class 'Wall of Heroes' — each student contributes a hero name + one character adjective.

Session 56 — PROJECT 5: My Hobby Presentation ★ PROJECT SESSION

Session Objectives:

- Present a personal hobby using organised spoken language and a visual.
- Demonstrate use of vocabulary and structures from the unit.
- Respond to questions with appropriate answers.

Expected Outcomes:

- Students deliver a 2–3 minute presentation about their hobby.
- Students use frequency language, benefits vocabulary, and descriptive adjectives.
- Students answer 2 audience questions confidently.

Materials:

Student-prepared visual aids, presentation rubric, peer feedback cards.

How to Teach This Session:

1. Room Setup (5 min): Arrange desks in a presentation layout. Display rubrics.
2. Presentations (50 min): Students present in groups of 5. Each student presents for 2–3 minutes. Group gives one question.
3. Q&A Practice (20 min): After all presentations in the group, students do a full Q&A round.
4. Peer Feedback (20 min): Students complete peer feedback cards: 'One thing I liked... / One question I have...'
5. Teacher Assessment (20 min): Teacher completes rubric during presentations. Shares brief oral feedback with each student.
6. Reflection (5 min): Journal — 'One thing I presented well: ____ / One thing I want to improve: ____'

WEEK 15

Stories & Imagination

Session 57 — Types of Stories

Session Objectives:

- Identify different story genres: fairy tale, adventure, mystery, fable.
- Understand narrative elements: character, setting, problem, solution.
- Predict and discuss story outcomes.

Expected Outcomes:

- Students classify 4 story extracts by genre.
- Students identify narrative elements in a short story.
- Students predict a story ending in 3 sentences.

Materials:

Short story extracts (one per genre), story elements chart, prediction sentence frames.

How to Teach This Session:

1. Warm-up (10 min): Read the opening line of 4 stories. Students guess the genre.
2. Genre Input (20 min): Explain each genre with characteristics. Students match examples to genres.
3. Story Elements (25 min): Read one short story together. Students identify character, setting, problem, solution on their chart.
4. Prediction Task (25 min): Students read a story up to the problem. They write 3-sentence prediction: 'I think the character will ____'
5. Pair Discussion (20 min): Students compare predictions. Which is most creative? Which is most logical?
6. Wrap-up (20 min): Journal — 'My favourite story genre is ____ because _____. I want to write a ____ story.'

Session 58 — Story Characters and Settings

Session Objectives:

- Create an original story character using descriptive language.
- Describe a story setting using sensory vocabulary.
- Use past continuous for setting a scene: 'It was raining when...'

Expected Outcomes:

- Students produce a character profile using 8+ descriptive adjectives.
- Students write a 4-sentence setting description using sensory vocabulary.
- Students use past continuous in a scene-setting sentence.

Materials:

Character profile template, sensory vocabulary word bank, setting description frame.

How to Teach This Session:

1. Warm-up (10 min): Describe a mystery character using only adjectives. Students draw what they imagine.
2. Character Creation (25 min): Students design an original character using the profile template:

appearance, personality, ability.

3. Sensory Setting (25 min): Teach 5 senses vocabulary for settings. Students choose a setting and describe it using all 5 senses.

4. Past Continuous Scene (20 min): Teach past continuous for setting: 'The sun was setting when the character arrived.'

5. Story Beginning (20 min): Students write the first 4 sentences of their story, introducing character and setting.

6. Wrap-up (20 min): 'Character Theatre' — students step into character and introduce themselves in role.

Session 59 — Writing My Story

Session Objectives:

- Write a complete short story with beginning, middle, and end.
- Use dialogue to make stories interesting.
- Edit writing for grammar and vocabulary.

Expected Outcomes:

- Students produce a complete 10-sentence short story.
- Students include at least 2 lines of dialogue.
- Students self-edit using a writing checklist.

Materials:

Story planning frame, dialogue writing guide, self-editing checklist.

How to Teach This Session:

1. Warm-up (10 min): Share a funny opening line. Students vote on which story they want to continue.
2. Planning Time (15 min): Students outline their story using the 3-part planning frame.
3. Writing Time (40 min): Extended independent writing. Teacher does individual mini-conferences.
4. Dialogue Workshop (20 min): Teach how to write and punctuate dialogue. Students add 2 lines to their story.
5. Self-Editing (20 min): Students use editing checklist to review their own story. Peer editing optional.
6. Wrap-up (25 min): Volunteers read aloud story beginnings. Class votes: 'What happens next?'

Session 60 — Our Story Anthology

Session Objectives:

- Read a peer's story and give constructive written feedback.
- Present their story in a creative, expressive way.
- Celebrate creative achievement.

Expected Outcomes:

- Students complete their story with illustrations.
- Students give written feedback to a peer using structured language.
- Students read aloud or display their story with confidence.

Materials:

Completed story drafts, coloured pencils, feedback form, string and clips for display.

How to Teach This Session:

1. Final Story Completion (25 min): Students add illustrations and a title to their story. Teacher does final read-throughs.
2. Peer Feedback (20 min): Students swap stories and complete feedback form: 'My favourite part was ____ because ____.'
3. Story Display (15 min): Stories are displayed around the room on a 'Story Gallery' string display.
4. Gallery Walk (25 min): Students walk around and read 3 classmates' stories. Leave one sticky note compliment.
5. Read-Aloud Circle (15 min): Volunteers read their story aloud. Audience listens and asks one question.
6. Wrap-up (20 min): Journal — 'Writing my story taught me _____. My favourite thing about my story is _____'

WEEK 16

Looking Back, Moving Forward — Final Week

Session 61 — Language Review and Reflection

Session Objectives:

- Review key grammar structures from the 16-week programme.
- Identify areas of strength and areas for improvement.
- Express progress and growth using reflective language.

Expected Outcomes:

- Students correctly complete a mixed grammar review task.
- Students identify 3 things they learned and 2 they want to improve.
- Students use 'I used to / Now I can' structure to describe growth.

Materials:

Mixed grammar review worksheet, progress reflection card, before/after language checklist.

How to Teach This Session:

1. Warm-up (15 min): 'Memory Map' — students draw a mind map of everything they remember from the course. Share with partner.
2. Grammar Review (30 min): Students complete a mixed grammar worksheet covering key structures from all units.
3. Language Checklist (20 min): Students review the Week 1 checklist and compare to current ability. Mark improvement.
4. Reflection Writing (25 min): Students write using the frame: 'At the start, I couldn't _____. Now I can _____. I am proud of _____.'
5. Pair Discussion (10 min): Students share reflections with a partner.
6. Wrap-up (20 min): Class celebration circle — each student says one thing they are proud of learning.

Session 62 — Vocabulary & Skills Consolidation

Session Objectives:

- Revisit and reinforce vocabulary from key thematic units.
- Apply vocabulary in varied communicative tasks.
- Develop confidence by performing familiar tasks independently.

Expected Outcomes:

- Students complete 4 vocabulary consolidation tasks accurately.
- Students demonstrate communicative competence in a conversation task.
- Students feel prepared and confident for the Final Project.

Materials:

Vocabulary revision game cards, conversation task cards, confidence self-rating card.

How to Teach This Session:

1. Warm-up — Vocab Race (15 min): Teams compete in a vocabulary relay: teacher says a theme, teams list vocabulary.
2. Station Rotation (50 min): 4 stations around the room, 10 minutes each: Station 1 — Word sorts; Station 2 — Sentence building; Station 3 — Conversation cards; Station 4 — Drawing and

labelling.

3. Consolidation Writing (20 min): Students write one paragraph that uses vocabulary from 3 different units.

4. Final Project Briefing (25 min): Explain the Final Project structure. Students plan their topic and approach. Teacher checks plans.

5. Confidence Check (10 min): Students rate themselves 1–5 on each skill area. Teacher notes any who need extra support.

6. Wrap-up (0 min): Encourage students: 'Tomorrow is your chance to show everything you've learned. You are ready!'

Session 63 — PROJECT 6: Final Inquiry Project — Part 1 ★ PROJECT SESSION

Session Objectives:

- Select a topic of personal interest and form an inquiry question about it.
- Organise and produce a multi-part project: poster or booklet + written text.
- Apply grammar, vocabulary, and communication skills from the full programme.

Expected Outcomes:

- Students produce a structured visual project (poster or booklet) on their chosen topic.
- Students write a 10-sentence text covering: what, why, how, and their opinion.
- Students demonstrate independent use of language.

Materials:

A3 project boards, coloured materials, student Inquiry Journals, vocabulary banks, writing frame.

How to Teach This Session:

1. Topic Confirmation (10 min): Students confirm their inquiry question. Teacher approves and provides targeted vocabulary support.
2. Visual Project Creation (50 min): Students design their poster/booklet. Teacher circulates to prompt, not correct.
3. Written Text Drafting (30 min): Students write their 10-sentence text using their journal notes and vocabulary banks.
4. Mid-Point Check (20 min): Teacher checks each student's progress. Provides brief written feedback on a sticky note.
5. Peer Support (10 min): Students in pairs show each other their progress and offer one suggestion.
6. Wrap-up (0 min): Students take projects home if needed for final touches. Tomorrow: presentation day.

Session 64 — PROJECT 6: Final Inquiry Project — Showcase & Celebration ★ PROJECT SESSION

Session Objectives:

- Present the completed inquiry project to an audience.
- Demonstrate competency across the four language skills.
- Celebrate learning achievements and personal growth.

Expected Outcomes:

- Students deliver a 3-minute presentation on their inquiry project.
- Students respond to 2 audience questions accurately.

- Students leave the programme feeling confident and proud.

Materials:

Complete student projects, final assessment rubric, celebration certificates, parent invitation (optional).

How to Teach This Session:

1. Room Setup & Welcome (10 min): Set up as a showcase event. If possible, invite parents or another class.
2. Presentation Showcase (60 min): Students present one by one or in small groups. Each gets 3 minutes to present + 2 for Q&A.
3. Audience Engagement (15 min): Audience members write on cards: 'One thing I learned from ____ was ____.'
4. Peer Certificate Ceremony (15 min): Students write one personalised compliment for a classmate on a certificate card.
5. Teacher Feedback (15 min): Teacher shares one highlight from each student's journey. Distributes completed rubrics.
6. Course Celebration (25 min): Closing circle — each student shares one sentence: 'I am proud that I ____.' End with applause.

SECTION 4: TEACHER ASSESSMENT CHECKLIST

Purpose & Instructions

This checklist is designed for use by teachers to assess the overall success of the 16-week inquiry-based EFL programme and the individual progress of each student. It should be used at four key checkpoints: end of Week 4 (Project 1), end of Week 8 (Project 2), end of Week 12 (Project 4), and end of Week 16 (Final Project).

For each item, use the following rating scale:

Score	Rating	Description
4	Excellent	Student consistently demonstrates this skill independently and with confidence.
3	Developing	Student demonstrates this skill most of the time with minor errors or occasional prompting.
2	Emerging	Student demonstrates this skill sometimes but requires regular support or scaffolding.
1	Beginning	Student rarely demonstrates this skill and requires significant support.
N/O	Not Observed	Insufficient evidence to rate at this checkpoint.

A. Listening Skills

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student consistently follows teacher instructions without needing repetition.	_____	_____	_____	_____
Student identifies key information in short spoken texts.	_____	_____	_____	_____
Student demonstrates understanding of A2-level audio by answering comprehension questions.	_____	_____	_____	_____
Student listens actively during peer presentations and asks relevant questions.	_____	_____	_____	_____
Student recognises and understands vocabulary introduced across all units.	_____	_____	_____	_____

B. Speaking Skills

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student introduces themselves and describes personal information with confidence.	_____	_____	_____	_____
Student uses appropriate vocabulary from thematic units in spoken tasks.	_____	_____	_____	_____
Student participates in class discussions and group activities in	_____	_____	_____	_____

English.				
Student delivers a structured oral presentation (minimum 2 minutes).	_____	_____	_____	_____
Student uses targeted grammar structures (present simple, past simple, comparatives, modals) in speech.	_____	_____	_____	_____
Student responds to questions from peers and teacher in full sentences.	_____	_____	_____	_____

C. Reading Skills

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student reads short A2-level texts and answers comprehension questions correctly.	_____	_____	_____	_____
Student identifies the main idea and key details in a text.	_____	_____	_____	_____
Student understands sequence and cause-effect in levelled reading materials.	_____	_____	_____	_____
Student uses context to infer the meaning of unfamiliar vocabulary.	_____	_____	_____	_____
Student reads aloud with reasonable fluency and pronunciation.	_____	_____	_____	_____

D. Writing Skills

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student produces sentences using a variety of A2 grammatical structures.	_____	_____	_____	_____
Student writes organised paragraphs with a topic sentence and supporting details.	_____	_____	_____	_____
Student uses linking words and sequencing language in written texts.	_____	_____	_____	_____
Student applies correct punctuation (capital letters, full stops, question marks).	_____	_____	_____	_____
Student completes creative writing tasks (stories, descriptions, reports) with reasonable accuracy.	_____	_____	_____	_____
Student uses vocabulary from thematic units appropriately in written work.	_____	_____	_____	_____

E. Vocabulary Development

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student demonstrates retention of vocabulary from all 16 thematic units.	_____	_____	_____	_____
Student uses new vocabulary in both spoken and written contexts.	_____	_____	_____	_____
Student correctly applies vocabulary in context without teacher prompting.	_____	_____	_____	_____

Student builds on existing vocabulary to express increasingly complex ideas.	_____	_____	_____	_____
--	-------	-------	-------	-------

F. Grammar Accuracy

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student uses present simple correctly for facts, habits, and routines.	_____	_____	_____	_____
Student uses past simple for narrating past events.	_____	_____	_____	_____
Student applies comparatives and superlatives accurately.	_____	_____	_____	_____
Student uses modals (can, should, must, will) in appropriate contexts.	_____	_____	_____	_____
Student demonstrates correct use of prepositions of place and time.	_____	_____	_____	_____
Student uses There is / There are and Have got correctly.	_____	_____	_____	_____

G. Inquiry & Critical Thinking Skills

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student formulates questions using inquiry language: How, Why, What if, I wonder...	_____	_____	_____	_____
Student finds and organises information from provided sources.	_____	_____	_____	_____
Student presents findings clearly in spoken and written form.	_____	_____	_____	_____
Student evaluates information and expresses an opinion with justification.	_____	_____	_____	_____
Student connects lesson content to real-world observations and experiences.	_____	_____	_____	_____

H. Project Assessment

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student completes all 6 project tasks throughout the programme.	_____	_____	_____	_____
Student projects demonstrate progressive improvement in language and organisation.	_____	_____	_____	_____
Student uses visual aids effectively to support oral presentations.	_____	_____	_____	_____
Student responds to audience questions using appropriate vocabulary and grammar.	_____	_____	_____	_____
Student demonstrates ability to plan, draft, and present independently.	_____	_____	_____	_____

I. Learner Engagement & Attitudes

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
----------------	------	------	-------	-------

Student participates actively in all session types: discussion, activities, projects.	_____	_____	_____	_____
Student takes risks in English and is not afraid to make mistakes.	_____	_____	_____	_____
Student shows respect for classmates' contributions and cultures.	_____	_____	_____	_____
Student maintains and uses their Inquiry Journal throughout the programme.	_____	_____	_____	_____
Student self-assesses honestly and acts on feedback.	_____	_____	_____	_____
Student demonstrates growth in confidence and motivation to use English.	_____	_____	_____	_____

J. Programme Outcomes (Summative Evaluation)

Checklist Item	Wk 4	Wk 8	Wk 12	Wk 16
Student has achieved demonstrable A2 competency in all four skills (CEFR A2 descriptors).	_____	_____	_____	_____
Student successfully completes the Final Inquiry Project and Showcase.	_____	_____	_____	_____
Student is prepared for transition to A2+ or B1 level with adequate scaffolding.	_____	_____	_____	_____
Programme goals have been met as evidenced by project assessments and teacher observation.	_____	_____	_____	_____
Teacher has documented student progress at Week 4, Week 8, Week 12, and Week 16 checkpoints.	_____	_____	_____	_____
