

TEACHERS TRAINING PROGRAM

for Novice English Teachers

Teaching Young Learners in Online Environments

Program Type	Professional Development Training
Target Audience	Novice Online English Teachers (0–2 years experience)
Format	Online (Synchronous & Asynchronous)
Total Duration	8 Weeks 4 Units ~40 Contact Hours
Units	4 Units (2 weeks each)

Prepared by Rayene Medabis
Academic Year 2025–2026

I. Program Overview

The Teachers Training Program for Novice English Teachers is a comprehensive professional development initiative meticulously designed to address the unique challenges faced by novice online English teachers who instruct young learners. The program equips participants with the pedagogical, managerial, and technological competencies required to deliver high-quality online English instruction to children.

The program is structured into four thematic units delivered over eight weeks, blending synchronous live sessions with asynchronous self-directed tasks, collaborative workshops, and practical teaching demonstrations.

Program Goals

Goal 1	Goal 2
Enhance Pedagogical Skills & Classroom Management for Online Teaching Equip novice teachers with strategies to effectively engage young learners in an online environment, including developmentally appropriate practices and virtual classroom management techniques.	Improve Technological Proficiency & Integration of Digital Tools Enhance teachers' abilities to use educational technology and digital tools efficiently, enabling them to create engaging and interactive online learning experiences.

II. Objectives & Learning Outcomes

Program Objectives

1	Design and Implement Interactive and Engaging Lesson Plans By the end of the program, participants will create lesson plans that cater to the developmental needs of young learners, ensuring content is engaging and suitable for their cognitive and emotional stages.
2	Demonstrate Proficiency in Using Online Teaching Platforms and Digital Tools Participants will gain proficiency in platforms such as Zoom and Google Meet, and incorporate at least five digital tools (e.g., interactive whiteboards, educational apps) into their teaching practice.
3	Develop and Implement Strategies for Managing Virtual Classrooms Participants will learn to manage virtual classrooms effectively: maintaining student engagement, handling disruptions, and fostering a positive online learning environment.
4	Assess Young Learners' Progress Using Online Assessment Techniques Participants will use various online assessment techniques to gauge students' progress and provide constructive feedback to both students and parents.

Learning Outcomes

Upon successful completion of the program, participants will be able to:

#	Learning Outcome	Justification	Evaluation Method
1	Design and submit three detailed lesson plans incorporating interactive activities tailored for young learners in an online environment.	Aligns with Objective 1 — ensures participants can apply pedagogical skills practically.	Lesson Plan Submission + Rubric Assessment (engagement, developmental appropriateness, creativity)
2	Conduct a live online teaching demonstration showcasing the ability to engage students and manage the virtual classroom effectively.	Aligns with Objective 3 — demonstrates practical application of classroom management in a live setting.	Observation by evaluators + Post-demonstration Feedback Session
3	Demonstrate proficiency in using three major online teaching platforms and five digital tools through practical exercises and quizzes.	Aligns with Objective 2 — ensures participants can effectively use technology to enhance teaching.	Practical Exercises + Short Quizzes on platforms and tools
4	Create and present a plan for managing common virtual classroom disruptions, including strategies for maintaining a positive learning environment.	Supports Objective 3 — helps participants develop strategies for real-world classroom challenges.	Written Plan Submission + Peer and Evaluator Presentation
5	Develop and implement an	Aligns with Objective 4 —	Assessment Tool Review +

	online assessment tool, administer it to a sample group, and provide constructive feedback based on results.	ensures participants can evaluate student progress and communicate with parents.	Implementation & Feedback Report
6	Engage in role-playing scenarios to practice effective communication with parents about their child's progress and home learning strategies.	Supports Objective 4 — role-playing allows practical application of communication skills in a controlled environment.	Role-Playing Evaluation + Peer Review feedback

III. Program Syllabus

The program is organized into four units, each spanning two weeks and totaling approximately 10 contact hours of instruction, workshops, and assessments. The syllabus below outlines the week-by-week schedule for each unit.

UNIT 1 | Weeks 1–2

Effective Online Pedagogy for Young Learners

This unit introduces participants to the foundational principles of online teaching and develops their ability to design interactive, developmentally appropriate lesson plans for young English learners.

Linked Objectives	Objective 1 — Design interactive lesson plans for young learners
Learning Outcome	Outcome 1 — Submit three detailed lesson plans

Session	Topic	Activities	Assessment	Hours
Week 1 Session 1	Principles of Online Teaching & Developmental Psychology of Young Learners	Lecture: Overview of online pedagogy frameworks; Breakout groups: developmental stage mapping activity	Reflection Journal Entry	3 hrs
Week 1 Session 2	Characteristics of Effective Online Lessons for Young Learners	Presentation: Features of engaging online lessons; Case study analysis: review of sample lesson videos	Discussion post: identifying engagement techniques	2 hrs
Week 2 Session 3	Designing Interactive Lesson Plans — Structure & Activities	Workshop: Lesson plan template walkthrough; Collaborative group work: draft lesson plan in pairs	Draft Lesson Plan (Peer Review)	3 hrs
Week 2 Session 4	Lesson Plan Refinement & Submission	Individual work: revise lesson plan based on peer feedback; Instructor feedback session on drafts	Final Submission: 3 Lesson Plans + Rubric Assessment	2 hrs

Unit 1 Assessment Summary

- Lesson Plan Submission: Three complete lesson plans demonstrating interactive, age-appropriate activities
- Rubric Assessment: Plans evaluated on engagement strategies, developmental appropriateness, and creativity
- Peer Review: Participants give structured feedback on at least one peer's lesson plan

UNIT 2 | Weeks 3–4

Technological Proficiency & Digital Tool Integration

This unit builds participants' confidence and competence in using online teaching platforms and a range of digital tools to create dynamic, multimedia-enhanced English lessons.

Linked Objectives	Objective 2 — Demonstrate proficiency in platforms and digital tools
Learning Outcome	Outcome 3 — Demonstrate use of 3 platforms and 5 digital tools

Session	Topic	Activities	Assessment	Hours
Week 3 Session 1	Introduction to Online Teaching Platforms (Zoom, Google Meet, Microsoft Teams)	Interactive Demo: Live walkthrough of platform features; Guided Practice: Participants set up and host a test session	Platform Setup Checklist	3 hrs
Week 3 Session 2	Digital Tools for Young Learners (Nearpod, Kahoot!, Padlet, Wordwall, Jamboard)	Interactive Demo: Tool-by-tool exploration; Hands-on Practice: Create one activity per tool	Tool Activity Portfolio (draft)	2 hrs
Week 4 Session 3	Integrating Multimedia & Interactive Resources into Lessons	Workshop: Embedding videos, audio, and games into lesson flow; Peer Teaching: Mini-lesson delivered using tools	Peer Teaching Observation Notes	3 hrs
Week 4 Session 4	Practical Assessment: Platforms & Tools Proficiency Check	Individual practical exercises: complete designated tasks on each platform and tool; Short Quiz on features and use	Practical Exercises + Quiz (graded)	2 hrs

Unit 2 Assessment Summary

- Practical Exercises: Demonstrate completion of tasks using Zoom, Google Meet, and one additional platform
- Tool Activity Portfolio: A collection of at least five activities using the five required digital tools
- Short Quiz: 20-question quiz covering platform and tool features and pedagogical use

UNIT 3 | Weeks 5–6

Classroom Management in a Virtual Environment

This unit focuses on the practical skills needed to manage an online classroom effectively — keeping young learners engaged, preventing and addressing disruptions, and building a supportive virtual learning community.

Linked Objectives	Objective 3 — Develop and implement virtual classroom management strategies
Learning Outcomes	Outcome 2 — Live teaching demo; Outcome 4 — Disruption management plan

Session	Topic	Activities	Assessment	Hours
Week 5 Session 1	Foundations of Virtual Classroom Management for Young Learners	Lecture: Key principles of virtual management; Case Study Analysis: Review of real classroom scenarios — what worked and what didn't	Case Study Reflection Post	3 hrs
Week 5 Session 2	Engagement Techniques & Motivation Strategies for Online Young Learners	Presentation: Pacing, rewards, transitions, and interactive elements; Discussion Forum: Sharing personal classroom challenges	Forum Post + 2 Peer Responses	2 hrs
Week 6 Session 3	Handling Disruptions & Creating a Positive Online Learning Environment	Role-Playing: Practice responding to common disruptions (technical issues, off-task behavior, shy students); Group debrief	Role-Playing Evaluation (formative)	3 hrs
Week 6 Session 4	Live Teaching Demonstration & Management Plan Submission	Participants conduct a 15-minute live online teaching demo; Evaluators assess engagement, pacing, and management; Submission of Disruption Management Plan	Live Demo Observation + Management Plan (graded)	2 hrs

Unit 3 Assessment Summary

- Live Online Teaching Demonstration: 15-minute session observed and assessed by evaluators and peers
- Post-Demonstration Feedback Session: Structured debrief highlighting strengths and areas for growth
- Disruption Management Plan: Written plan plus group presentation with peer and evaluator feedback

UNIT 4 | Weeks 7–8

Assessment & Feedback Techniques for Young Learners

This unit equips participants with a repertoire of online assessment methods appropriate for young learners and develops their skills in delivering meaningful feedback to students and parents.

Linked Objectives	Objective 4 — Assess young learners and provide constructive feedback to students and parents
Learning Outcomes	Outcome 5 — Assessment tool; Outcome 6 — Parent communication role-play

Session	Topic	Activities	Assessment	Hours
Week 7 Session 1	Online Assessment Methods for Young Learners	Lecture & Video: Formative vs. summative assessment; Types: quizzes, observation, portfolios, exit tickets; Group discussion: advantages and limitations of each type	Assessment Method Comparison Chart	3 hrs
Week 7 Session 2	Creating Effective Online Assessment Tools	Workshop: Design an online assessment tool using Google Forms, Kahoot!, or Nearpod; Peer review of draft tools	Draft Assessment Tool Submission	2 hrs
Week 8 Session 3	Providing Constructive Feedback & Parent Communication	Lecture: Principles of constructive feedback for young learners; Role-Playing: Simulated parent-teacher communication scenarios (progress reports, concerns, support strategies)	Role-Playing Evaluation + Peer Review	3 hrs
Week 8 Session 4	Assessment Tool Implementation & Program Closing Reflection	Administer finalized assessment tool to a sample group; Complete Implementation & Feedback Report; Program closing ceremony and collective reflection	Final Assessment Tool + Implementation Report (graded)	2 hrs

Unit 4 Assessment Summary

- Assessment Tool: Final online assessment tool reviewed for clarity, age-appropriateness, and alignment with learning goals
- Implementation & Feedback Report: A structured report detailing administration process, student results, and feedback given
- Role-Playing Evaluation: Assessed on communication clarity, empathy, and practical advice given to parents

IV. Curriculum Framework

The curriculum is built around two overarching goals and four core objectives, with each unit contributing targeted content, instructional strategies, and assessments that build progressively toward program-level competence.

Curriculum Alignment Map

Unit	Core Content	Instructional Strategies	Assessment Methods	Linked Outcomes
Unit 1: Online Pedagogy	Online teaching principles; Developmental needs of young learners; Lesson plan design	Lectures; Hands-on workshops; Collaborative group work; Peer review	Lesson Plan Submission; Rubric Assessment	Outcome 1 (Obj. 1)
Unit 2: Tech Proficiency	Online platforms; Digital tools (5+); Multimedia integration	Interactive demos; Guided practice; Peer teaching mini-lessons	Practical Exercises; Platform Quizzes	Outcome 3 (Obj. 2)
Unit 3: Classroom Management	Virtual management strategies; Engagement techniques; Positive environment creation	Case studies; Role-playing; Online discussion forums	Live Demo; Management Plan Submission & Presentation	Outcomes 2 & 4 (Obj. 3)
Unit 4: Assessment & Feedback	Online assessment methods; Constructive feedback; Parent engagement strategies	Lectures; Workshops; Role-playing parent communication scenarios	Assessment Tool + Implementation Report; Role-Playing Evaluation	Outcomes 5 & 6 (Obj. 4)

Instructional Approach & Rationale

Lecture & Presentation	Introduces key concepts, frameworks, and theoretical grounding. Paired with hands-on tasks to prevent passive absorption and ensure immediate application.
Hands-on Workshops	Central to all units; participants apply concepts in real-time, receive immediate feedback, and build artifacts (lesson plans, tools) that can be used in practice.
Collaborative Group Work	Encourages peer learning, builds a community of practice among novice teachers, and mirrors the collaborative nature of professional teaching environments.
Case Studies	Ground theoretical concepts in realistic scenarios, making abstract ideas concrete and immediately applicable to the virtual teaching context.
Role-Playing	Allows participants to rehearse high-stakes interactions — handling classroom disruptions, communicating with parents — in a safe, low-risk environment before facing them live.

Peer Teaching & Review

Participants practice using tools and strategies by teaching each other in a low-stakes setting, building confidence before live demonstrations. Peer review fosters critical reflection.

Assessment & Grading Policy

Assessment Component	Unit	Weight
Three Lesson Plans (Rubric-Assessed)	Unit 1	20%
Practical Exercises + Technology Quiz	Unit 2	20%
Live Teaching Demonstration	Unit 3	25%
Disruption Management Plan + Presentation	Unit 3	10%
Assessment Tool + Implementation & Feedback Report	Unit 4	15%
Parent Communication Role-Playing Evaluation	Unit 4	10%
TOTAL	All Units	100%

Completion Requirements

To receive a Certificate of Completion, participants must:

- Attend a minimum of 80% of all live synchronous sessions
- Submit all major assessments (lesson plans, live demo, assessment tool, and implementation report)
- Achieve an overall score of 70% or above across all graded components
- Participate actively in discussion forums and peer review activities
- Complete the end-of-program self-reflection and feedback survey
